THE UNIQUE FUSION OF ACTIVES, TOUCH AND TECHNOLOGY

BIOTEC combines TECHNOLOGY & TOUCH to deliver the next generation of facials in one brand new machine - giving you immediate, visible & long lasting results.

The skins' unique bio-chemistry is constantly compromised by lifestyle, sunlight, stress, age, illness & medication - causing a breakdown in cellular communication & energy, resulting in a weakened skin structure, stressed & unbalanced skin.

These unresponsive cells need NEW STIMULI to help re-boot cellular performance & re-establish effective cell communication, **enhancing the skin's**

ability to repair, renew & re-tone.

Elemis found that combining a unique synergy of three targeted stimuli - TOUCH, TECHNOLOGY and HIGH POTENCY ACTIVES it was possible to deliver **immediate, visible & long-lasting results from non-invasive facial treatments, with zero downtime.**

Each BIOTEC facial treatment has a specialised activator - a powerful, concentrated serum to **target specific skin needs & deliver immediate, uncompromising results.**

A woman with long, flowing red hair is captured in a moment of pure joy, running through a field of tall grass. She is wearing a white, short-sleeved, tiered dress that is billowing around her. Her arms are outstretched, and her head is tilted back, eyes closed, as if she is embracing the sun. The background is a soft, golden glow from a setting or rising sun, with a line of trees visible in the distance. The overall mood is one of happiness and freedom.

Electrolysis with the NEW Apilus Platinum Pure

For over 130 years, electrolysis has been & remains the only recognized 100% permanent hair removal method. This technique permanently destroys germinative cells responsible for hair growth, thanks to the insertion of a fine probe in the hair follicle & the application of a current adjusted to the type of hair & the area to be treated.

The medical grade Apilus Platinum Pure uses 27 MHz radio frequency. This hi-tech & high speed system is very comfortable - there really is only a tingle not a bee sting & with virtually no skin reaction! Seriously, you would never know that you are having needle electrolysis!

The Apilus Platinum Pure works twice as fast as any other epilator by optimizing energy concentration in the hair follicle. The number of treatments needed to obtain complete & permanent results is, on average, 25% less than usual. Moreover, the Platinum Pure can effectively treat any hair or skin colour. Electrolysis treatments with the Apilus Platinum ultrarapid epilator will always deliver maximum results. We provide a complimentary consultation to assess the area & explain the treatment to you.
